Why Actuant?
The Actuant Corporation team believes the key to our future success is having an engaged and expert workforce to help deliver exceptional service to our customers. Much of our expertise has been gained through the transition of employees across businesses, from our acquisitions and from our customers, who are choosing to further their careers with Actuant.

That is why joining Actuant represents a huge opportunity for development—not just for you but also for us.

Qualifications:
- Marketing major
- 3.2 GPA, at minimum
- Leadership experience
Rotational Assignments
Each rotation assignment is carefully designed by the functional program Advisory Team to provide challenging developmental opportunities within the context of a short-term work assignment.

Assignments increase in complexity, opportunity, responsibility and accountability over time. The rotations will include assignments in a minimum of two different business segments and/or business units, across varied geographies, so the participants gain a broad understanding of our business as well as develop their functional skills.
